YAN-TAT

Edited by Senior Class

of

1948

Bartlett Yancey High School

IN DEDICATION

TO

MRS. W. B. WITTY

For her deep abiding friendship,
for her helpfulness and patience as a
teacher;

And for the loyal support, hard
work and generous giving of her time toward
the cause which made this annual possible.†

We affectionately dedicate this issue
of the YAN-TAT to Mrs. W. B. Witty.

CLASS MOTTO: "Seeking the stairway to the stars."

CLASS FLOWER: Buttercup

CLASS COLORS: Green and white

CLASS SONG: By W. E. Farthing

Tune: The Stars Will Remember

Tonight we must leave you dear Bartlett Yancey High,
And how we will miss you when we go,
Dear teachers and classmates, we now must say goodbye,
And leave all our mem'ries far behind.

And as we say farewell our eyes are filled with tears,
And in our hearts we find it hard to part,
Farewell to each teacher, farewell to everyone,
Farewell to you Bartlett Yancey High.

SOCIALS

On October 31, 1945 members of the Freshman Class had their first social as high school students. The witches were on prowl that night as the guests entered the School Auditorium. From the numerous costumes the judges decided that Nina Smith and Doris Watlington were the cutest. They were dressed as twin peasant maids. The usual Halloween theme was carried out.

Under the green and yellow streamers of the May Pole centering the recreation room of the Club House the couples of . . . S. enjoyed dancing and games. The Home Economics girls sponsored the big event on May 11, 1946 under the direction of Miss Jessie Mary Wilson. A miniature May Pole centered the punch table from which delicious refreshments were served.

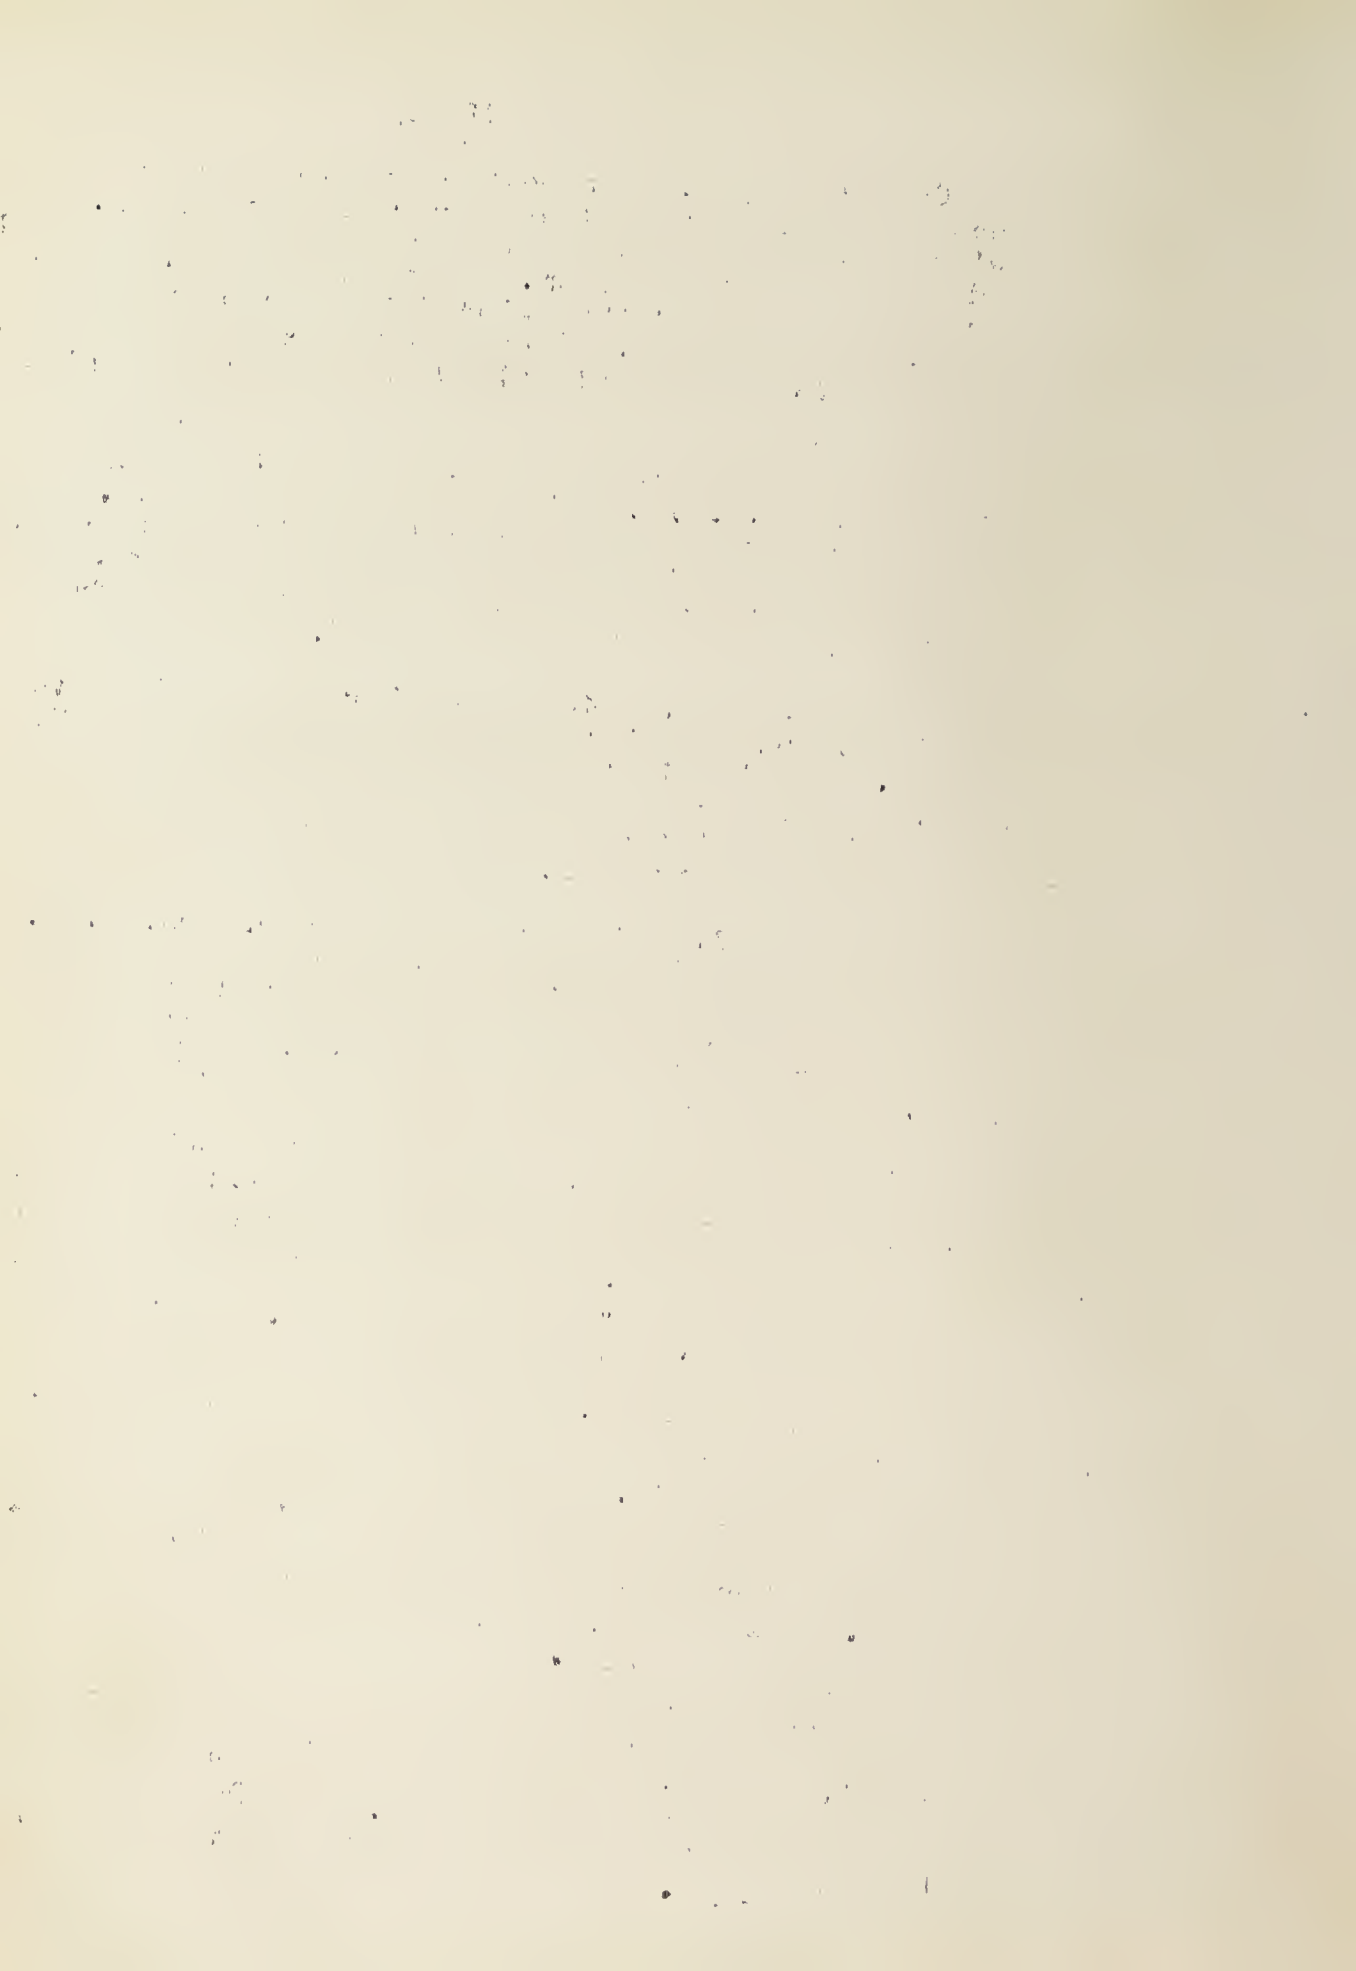

On October 25, 1945 the Juniors entertained the Seniors, and a number of invited guests at the Club House. Dancing in the candle light was enjoyed by all. Later fuzz punch and cookies were served from the refreshment table which was decorated with candles and evergreens.

On March 21, 1947 our grade mother, Mrs. H. M. Poteat, entertained us at a weiner roast and dance. After everyone had enjoyed roasting and eating weiners outside the Club House, they migrated to the recreation room where dancing was enjoyed by all. Punch and cookies were served during the dance.

On April 11, 1947 the Danville Country Club was bubbling over with life as the Junior-Senior Banquet began. The girls were thrilled over the colorful array of flowers and evening dresses. The guests were ushered into the dining room where the theme of "The Garden of Tomorrow" was carried out. Music was furnished during the dinner by Jean Stephens at the piano.

The Seniors and invited guests completed their celebration of Christmas at a dance at the Club House on December 27, The recreation room was decorated with green and red streamers draped from the rafters. The punch table was decorated with candles and pine brightened by arrangements of colored Christmas tree balls. Fuzz punch, cake, nuts and mints were served throughout the dance.

The annual Junior-Senior Banquet marked the highlight in the social events of our last year in high school. It occurred on the seventh of May and was held in the school auditorium. May Day was the theme of the banquet and the school colors were used in the decoration.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy auditing of the accounts.

2. The second section details the various methods used to collect and analyze data. It includes a list of the different types of surveys conducted, such as focus groups, online polls, and direct interviews. Each method is described in terms of its strengths and limitations, providing a clear understanding of how the information was gathered.

3. The third part of the report focuses on the results of the data analysis. It presents a series of charts and graphs that illustrate the key findings. These visual aids help to identify trends and patterns in the data, making it easier to interpret the overall picture. The text accompanying these charts provides a detailed explanation of what each data point represents.

4. In the final section, the author offers conclusions and recommendations based on the findings. It suggests several strategies that could be implemented to address the issues identified in the data. These recommendations are tailored to the specific needs of the organization and are designed to be practical and actionable.

5. The document concludes with a summary of the key points and a statement of the author's appreciation for the support provided throughout the project. It also includes a list of references and a bibliography of the sources used in the research.

JUNIOR CLASS HISTORY

The first activity of the school year for the Junior Class was the election of officers. Ann Gatewood was chosen class president, Dewey Swicegood, vice-president; Violet Yarbrough, secretary and Jean Stephens, treasurer. Jennie Hicks and Carlton Kimbro were elected to represent the class on the Student Council and Florence Shelton the reporter for the TATTLER.

Early in December the Junior Class sponsored a dance at the Club House, and the next social event of major importance was the Junior-Senior banquet. This event was held in the school auditorium on May 7, 1948.

During the course of the school year, the class lost seven of its members, some to other schools and one to matrimony. There were two additions to the class, however, Blanche Jones from Prospect Hill and Jeannine Apple from Cobb.

At the close of the session there are 28 Juniors who are looking forward to graduating next year.

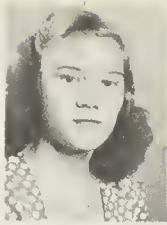

The following table shows the results of the experiments conducted on the 15th of June 1900. The first column gives the number of the experiment, the second column the time taken for the reaction to take place, and the third column the amount of gas evolved. The fourth column gives the temperature of the reaction mixture at the end of the reaction. The fifth column gives the amount of gas evolved per unit weight of the substance used. The sixth column gives the amount of gas evolved per unit volume of the reaction mixture. The seventh column gives the amount of gas evolved per unit weight of the substance used and per unit volume of the reaction mixture. The eighth column gives the amount of gas evolved per unit weight of the substance used and per unit volume of the reaction mixture. The ninth column gives the amount of gas evolved per unit weight of the substance used and per unit volume of the reaction mixture. The tenth column gives the amount of gas evolved per unit weight of the substance used and per unit volume of the reaction mixture.

GIRLS' BASKETBALL NEWS

March 12, 1948 was a sad night for some of our basketball players. The last game was played on that date at Cobb and was lost by 5 points. The score was 25-20. The lost game was not the cause for the sadness, however, but the fact that the team was losing four of its players for good--Bradner, Buttz, Whitlow and J. Watlington.

Mary Wilma Watlington was high scorer for the year. Totals were as follows:

M. Watlington	62
H. Mise	58
L. Bradner	42
J. Thompson	38
B. Swicegood	27
J. Watlington	29
E. Worsham	13

Of the fifteen games played during the season, five were won. Most of the players were playing for their first time this year. What was not made in scores was made up for in the fun and enthusiasm exhibited by team members.

We wish to express our deepest appreciation to Mrs. J. E. Zimmerman for the devoted attention and coaching she has given us in all of our games.

We can look back with a pleasant memory to the happy days we spent together playing basketball. We can always remember with pride how we played our best for the honor of our school, Bartlett Yancey High.

BOYS' BASKETBALL NEWS

With the guidance and patient coaching of Mr. R. E. Sadler, the B. Y. H. S. basketball varsity squad started the season with a BANG! Practice was called twice a week and the boys were taught various plays which later proved to be of unquestionable value.

Of the sixteen games played this year, the team won eleven and lost five. Hunt was high scorer for the year with 105 points, and Lindsey Foster was second high with 104 points.

At the end of the season the regular school tournament was held and provided fun and thrills, in addition to adding some new prospects for next year's school team. The eighth and tenth grades teamed together and won out over the eleventh; the ninth beat the twelfth, and the ninth won out in the finals by defeating the eighth and tenth.

The varsity team wishes to express its thanks to Mr. R. E. Sadler for his interest and time that he so freely shared with them.

The games played this year resulted in the following scores:

B. Y. H. S. (22)	vs.	Murphy	(17)
B. Y. H. S. (9)	vs.	Anderson	(19)
B. Y. H. S. (31)	vs.	Murphy	(15)
B. Y. H. S. (23)	vs.	Altamahaw	(18)
B. Y. H. S. (18)	vs.	Prospect Hill	(13)
B. Y. H. S. (31)	vs.	Ruffin	(22)

BASEBALL TEAM NEWS, 1947-48

This year marked a year of victory for the B. Y. H. S. baseball team.

With the help of the Senior Class and the local chapter of the Future Farmers of America new suits were obtained. These suits served not only as a mode of dress but aroused new school spirit and teamwork on the part of the players. Though suits helped, they could not have provided the sole motivation for a victorious team. The players will long remember another all important factor contributing to victory and that--the fine coaching of Mr. N. S. Upchurch and Mr. R. E. Sadler.

Although the team did lose the two exhibition games played, when the regular rolled around it was in excellent form, and made a fine show. The first game on the schedule called for Prospect Hill on the local diamond, and this game was the start of a seven game winning stretch for the team of B. Y. H. S.

The pitching has been well supported by the team's superior hitting power which has been shown at the plate. The leading hitter of the year was A. Kimbro with the fat average of 520. Other regular players hitting above the 300 bracket were Hunter Lunsford, Mack Willis, C. Kimbro, and Max Smith.

The pitching record and scores of games played up to date are as follows:

	(Won)	(Lost)
Rowland, B.	Two	None
Carter, T.	Two	None
Kimbro, A.	One	None
Willis, M.	One	None
Foster, L.	One	None

B. Y. H. S. (11)	vs.	Prospect Hill (1)
B. Y. H. S. (12)	vs.	Anderson (2)
B. Y. H. S. (3)	vs.	Bethany (2)
B. Y. H. S. (7)	vs.	Cobb (6)
B. Y. H. S. (13)	vs.	Prospect Hill (1)
B. Y. H. S. (6)	vs.	Bethany (5)
B. Y. H. S. (9)	vs.	Anderson (4)

This gives the team a total of seven wins and no losses up to date, but there are still three more games scheduled for this season.

REPORT ON THE PROGRESS OF THE WORK

During the year 1900, the work of the Department has been carried on in accordance with the programme of work approved by the Council in 1899.

The first part of the work has been devoted to the study of the general principles of the theory of the functions of a complex variable. The second part has been devoted to the study of the properties of the functions of a real variable. The third part has been devoted to the study of the properties of the functions of a real variable.
